Mr. Gary Baughman
Hazardous Waste Facilities Unit Leader
Colorado Department of Health
4300 Cherry Creek Drive South
Denver, Colorado 80222-1530

Gentlemen:

We have received your letter dated April 2, 1993, requesting that the U.S. Department of Energy (DOE) Rocky Flats Office (RFO) prepare a Comprehensive Risk Assessment (CRA) as outlined in Paragraph 154 and Attachment 2 of the Rocky Flats Plant (RFP) Interagency Agreement (IAG). The DOE/RFO concurs that the CRA is necessary and that it would support overall sitewide integration of Environmental Restoration activities at the RFP. In addition, we concur that the initial effort will consist of the development of a site-wide conceptual model for both human and environmental exposures.

In July 1992, DOE/RFO made the decision that the CRA, upon request from the U.S. Environmental Protection Agency and the Colorado Department of Health, would be implemented by a DOE support contractor other than EG&G. This decision was based on the fact that EG&G currently has their hands full with the Operable Unit (OU) specific risk assessments. We believe that adding primary responsibility for the CRA to EG&G's existing responsibilities could potentially interfere with our ability to meet IAG milestones. However, it is our intention that EG&G play a major supporting role for the CRA.

The implementation of the CRA will represent an increase in scope of our current IAG activities. Therefore, one of our most immediate actions will be to evaluate the impact of the CRA on our existing Environmental Restoration funding structure for the IAG. The scoping meeting requested in your letter will be very helpful in our making this evaluation.

We will be contacting you shortly to set up a meeting to discuss the scope of the CRA. If schedules allow, the meeting will be scheduled prior to April 22, 1993. Since the CRA is also of interest to the CERCLA Natural Resource Co-trustees, we plan to invite their representatives to the scoping meeting.
